Richard Webster, Legal Director
Riverkeeper

*YES, Indian Point is closing
NO, the danger is not over!*

SIGNIFICANT & POTENTIALLY CATASTROPHIC RISKS TO OUR ENTIRE REGION CONTINUE

- Physical degradation of the plant
- 2000+ metric tons of highly radioactive nuclear waste
- A gas pipeline located 105 feet from critical safety infrastructure
- Impossibility of evacuating the area
- Who will monitor the shut down and clean up?

*Learn about the situation, get
questions answered & take action!*
